<b>II. COMMANDER'S REVIEW AND BRIEFING SECTION</b>			
<p><b>BRIEFING INSTRUCTIONS.</b> <i>Commanders should discuss training, experience, use of safety equipment, rules, and precautions with personnel participating in high-risk activities. This risk assessment is not intended to prohibit personnel from participating in high-risk activities, but to ensure they are familiar with the hazards and injury potential of these activities. Commanders should ensure personnel wishing to participate in high-risk activities use appropriate safety measures. If commanders determine these personnel are inadequately trained or inexperienced and (or) a threat to safety and the mission exists, they must prohibit these personnel from participating in the activity. However, the commander's role in safety does not replace the individual's responsibility. The individual must exercise sound judgment and self-discipline and not put life, limb, or the performance of his or her Air Force duties in jeopardy.</i></p>
